## The People's Party

Over the past 20 years I have lived, worked, and brought up my family in Royal Ramsey. Through my years teaching at Ramsey Grammar School, I may well have taught you or a member of your family and have always taken pride in giving and being part of our community. I shall soon be retiring from teaching, which will allow me to dedicate all of my time to the role of Commissioner.

I truly love our community, personally contributing by supporting our local Manx Heritage and fundraising for several of our local Ramsey charities, support that I will continue to provide regardless of the electoral outcome. Over the years I have and continue to offer *free* private tuition to young people in the North, who struggle with academia and thus offer, I hope, a little extra support and confidence. Working with young people for so many years, I understand the importance of local support and perhaps a need for more outreach facilities.

I have decided to run as an **independent candidate** to ensure it is **your voice that is heard**; my manifesto is, and will continue to be, your wants and needs as the people of Ramsey. In my opinion, a Commissioner is a **servant** and **spokesperson** for the people, therefore I will not be forcing my own agenda or beliefs. I will fight for **your wants and needs**, bringing your concerns to the forefront. I am totally self-financing my election campaign, as I believe in "putting my money where my mouth is". I believe wholeheartedly in the people of Ramsey and if I am given the privilege of serving you, the Ramsey South electret, you will gain a **passionate, devoted, and hardworking commissioner**.

If elected, I will ensure that your views will be consistently brought to the attention of the RTC, listening to your concerns at my **open surgery every Saturday at the Ramsey Court House 11am to 1.30pm**. Tell me what you want to see from your local commissioners:

- **Cummal Mooar:** - Is it an essential service for the people of Ramsey, a community that have paid into the government coffers over decades and are *still* financially contributing, or an outdated requirement which lies on rich real-estate land, a prime location for potential marina apartments and regeneration?
- **Local Rates:** - Is **your** money being allocated in order of **your** local priorities....flooding, drains, uneven pavements and pot holes?
- **Proposed Marina:** - A boost for the local economy or major pollutant and destroyer of local habitats?
- **Sulby Riverside Scheme:** - Is housing on a floodplain ever a good idea and will the promise of building areas for the local community, on this proposed new development, materialise?
- **Reintroduction of Local Community Transport:** - A public necessity or financial drain?
- **Mental Health:** - Is there enough local support and amenities for young people and adults with mental health problems in our community or would you like to see more?
- **Parking:** Is it necessary to restrict these areas to 2-hour periods and would you like to see more parking facilities?
- **Cleaner streets:** - Should more provision be given to ensure that irresponsible dog owners are fined and made accountable?

## What's on your agenda?

Remember, **'A Vote for me is a Vote for your Voice'**

Garden Flat, Premier Court, Mooragh Promenade, Ramsey
